Education

Ph.D. in Computer Science   **University of Massachusetts, Amherst**
Supervised by Prof. Subhransu Maji | Expected Graduation May 2029   *2023 - current*
Bachelor of Technology (B.Tech)   **Indian Institute of Technology Delhi**
Computer Science and Engineering, Major GPA: 9.35   *2019 - 2023*

Internships

Long Form Video Question Answering   **Dolby, San Francisco**
Multimodal AI | Large Vision Language Models | Video Understanding   *May - Aug 2024*

- Factored approach of first retrieving relevant moments in long video and then answering questions.
- Benchmarked approach with 4 large VLMs (proprietary and open) on 4 long form video QA datasets.

Explainable AI (XAI)   **Sony Group Corporation, Japan**
Deep Learning Research Intern | Responsible AI | Attention Mechanisms   *May - July 2022*

- Developed **reusable** & **modular** APIs for 3 XAI methods with rigorous tests and integration in nnabla.
- Implemented SOTA models of DenseNet, ResNext with attention branch on NNC, Sony's GUI for DNNs.

Unsupervised Domain Adaptation for Action Recognition   **University of Sheffield, UK**
Prof. Haiping Lu, CS Sheffield | Transfer Learning | Adversarial Training   *May - Aug 2021*

- Worked on core feature enhancement of PyKale, having **unified API** for Domain Adaptation methods.
- Integrated TA3N, SOTA in **Unsupervised Domain Adaptation for Action Recognition**, into PyKale.

Automated Box Counting   **Flytbase, Pune**
AI and Robotics Intern | Deep Learning | Computer Vision   *Apr 2020 - July 2020*

- Box delineation in unstructured stacks for drone-based **automated inventory** management system.
- **Ensemble model** combining Object Detection, Segmentation, Corner Detection and Edge Detection.

Publications

Audio Geolocation: An Investigation with Natural Sounds   **CVPR '25**
Mustafa Chasmai, Wuao Liu, Subhransu Maji, Grant Van Horn   *under review*

The iNaturalist Sounds Dataset   **NeurIPS '24**
Mustafa Chasmai, Alexander Shepard, Subhransu Maji, Grant Van Horn   [paper]

Robust Prototypical Few-Shot Segmentation with Regularized Neural-ODEs   **MICCAI '22, TMI '23**
Prashant Pandey, Mustafa Chasmai*, Tanuj Sur, Brejesh Lall*   [paper], [paper]

Weakly Supervised Zero and Few Shot Segmentation with Instance-Aware Prompting   **ICME '23**
Prashant Pandey, Mustafa Chasmai*, Monish Natarajan, Brejesh Lall (* equal authorship)*   [paper]

From Forks to Forceps: A New Framework for Segmentation of Surgical Instruments   **WACV '23**
Britty Baby, Daksh Thapar, Mustafa Chasmai, Tamajit Banerjee, Subhashis Banerjee, Chetan Arora [paper]

A View Independent Classification Framework for Yoga Postures   **SNCS '22**
Mustafa Chasmai, Nirjhar Das, Aman Bhardwaj, Rahul Garg   [paper]

Key Course Projects

- **Robot Localization** | Prof. Rohan Paul | Kalman Filter | HMM | State Estimation | Data Association |
- **Person Re-Identification** | Prof. Chetan Arora | Metric Learning | Triplet Loss | Self-Ensembling |
- **Noisy Caption Reader** | Prof. Parag Singla | Encoder-Decoder | LSTM | Residual Network | Res-50 |
- **Traffic Density Estimator** | Prof. Rijurekha Sen | Homography | Background Subtraction | OpenCV |
- **Multi-Player Game and Simulation** | Prof. Rijurekha Sen | SDL | Constrained Travelling Salesman |

Miscellaneous

- **Technical Skills** | Python, C++, Java | Pytorch, Pandas, ScikitLearn | Google Colab, HPC, GPT-3.5 |
- **Fellowships & Awards** | IITD Top 7% (3 sems) | OCSC camp for IPhO | KVPY | INSPIRE | AIR 91 JEE'19 |
- **Extra Curricular** | Student Mentor | AI-ML club | Photography | Physics & Astro | Rubik Cube (20$\times$20) |
- **Research Interest** | Computer Vision | Multimodal Learning | Applied AI for Ecology and Sciences |
